First and foremost, Lazarus, I know Matt thanked you on my behalf. But truly, THANK YOU from the bottom of my heart. We love it - and are so grateful for the photos and video that we can look at to relive the most special weekend and to share with family and friends (particularly Matt's family abroad who couldn't be there in person, like his Nonna). You are very creative and talented.

Hi Lazarus,

Thank you so much! The video really is stunning, you really captured the day so well. Every part of the evening comes through with its respective feel energy. In particular, I really love how you do the very beginning with the priest's voice overlaid onto the video of us, the sunlight through the trees, the little kids running towards the camera... really really special.

1 -Wow - very cool! I love how Lazarus spliced in from different time periods, the sensational, the softer moments, and also from the dancing on Friday night. Very touching and incredible!

Thank you!!!
